Herbal Antiseptic and Antimicrobial Ingredients

Initiated by DST-SHRI

The Palamalai Hills stand as a lush, green haven, home to ancient healing traditions of the Malayali tribes

Combining traditional wisdom and advanced techniques, the facility develops effective and sustainable product formulations.

Traditional healers gather plants and craft remedies, preserving their deep bond with nature

Ensuring safety and efficacy, the products undergo ethical testing to meet modern scientific standards

Tribal youth are being trained to sustainably harvest and process medicinal plants.

Research facility working to preserve and study ancient herbal knowledge.

Carefully crafted and tested products make traditional remedies accessible to a wider audience.

Established a medicinal nursery and reference cultivation plot to conserve, maintain, and cultivate diverse dermatological and medicinal plant species.
